

Prima Controls Group Launched as Controls, Drives, and Remote Service Provider

manroland Goss web systems announces new group added to portfolio of Engineered Solutions

After obtaining intellectual property rights to the assets of Harland Simon following the company's insolvency in October 2018, manroland Goss web systems has announced the launch of the new group focused on controls and drive upgrades and remote support programs for all newspaper press brands, Prima Controls Group.

Made up of former Harland Simon Engineers and Technicians and led by Senior Manager of Engineered Solutions Steve Withers, Prima Controls Group is focused on providing the proven solutions for all different makes and models of newspaper press equipment, utilizing their over 100 years of press controls experience to create new opportunities for success in newspaper printing, as well as support the large installed base of controls & drives systems and remote support programs already in place throughout the world.

"With the launch of Prima Controls Group, we believe that we are in the best position we have ever been to offer support and enhancements to the Newspaper market," stated Ron Sams, Vice President of Sales for manroland Goss web systems. "We now have the expertise and the portfolio with solutions for press controls and drive upgrades at every size and for every brand on the market."

Prima Controls Group Senior Project Manager Shawn Wright sees the benefits of being a part of manroland Goss web systems. "Now that we are supported by the combined resources of the new manroland Goss web systems company for both manroland and Goss press equipment, this opens the door for a completely new level of collaboration that was not possible in the past."

With the establishment and industry launch of Prima Controls Group, the team is now fully engaged in discussions with print providers of all sizes within the newspaper industry, creating best-in-class solutions made for the challenging requirements of newspaper production

The **manroland Goss Group** is the leading supplier of web-offset printing solutions. The company provides System Solutions for highly automated press and post-press equipment, Engineered Solutions for mechanical, automation and closed-loop upgrades for all types of presses, Service Solutions for parts and labor, tele-support and service level agreements 24/365, and E-commerce Solutions for all suppliers to the web offset industry and beyond.
